

ELSANRANTA

SAIMA AVILLAS

Dear partner

Sahanlahti Resort is listed as one of the growth companies in South Savo, Lake Saimaa District with a long-term plan aiming for reasonable and responsible growth. The surrounding nature, available resources and the family company values are the guiding principles at all stages. Even with choosing partners to co-operate with.

We have great news about our newest investment: Elsanranta Saimaavillas!

Ten villa apartment will find their place at Elsanranta in spring 2023 and booking calendar is open from 15.6. →

We have been building a totally new luxury concept and accommodation to our new Elsanranta area at Sahanlahti Resort. The new villas of Elsanranta are pure luxury. The magnificent, pure nature of Lake Saimaa added with high-class services, modern design and sustainable choices guarantee a truly unique Saimaa experience

Sustainable luxury villas in one of the most beautiful holiday resorts in Finland

The construction of Elsanranta area began in March 2022. Elsanranta has 10 holiday apartments (5 semi-detached villas) with a clear, beautiful view over Lake Saimaa. The villas were designed by Rauno Lehtinen from Sigge Architects. The villas are located on a private cape and surrounded by rocks and pines. The ground is live moor. The guests walk to the villas from the parking area along wooden passages thus minimising the strain on the environment. The nature of the area and the forest are preserved as untouched as possible.

The exterior of the villas is Scandinavian with natural and coal black tones. The construction material is cross-laminated timber (CLT) consisting also of renewable and recycled wood. Read more about sustainability <https://elsanranta.fi/en/responsibility>

Wellbeing and own space

Each Elsanranta villa opens an unobstructed view to Lake Saimaa allowing you to enjoy the nature while relaxing in the villa, pool or sauna. The villas are well-suited for two people (option for third person). The colour scheme of the decor conforms with the surrounding nature. All villas are built with sustainable materials using energy-efficient solutions.

Each apartment has one big room with a 200-cm-wide luxury double bed, a sofa and a seating group for two, a small drinks cabinet for coffee, tea and bubbly drinks with a minibar. The apartment has a bathroom with pampering bath products and a sauna with an "always ready" stove. On the deck, there is a Finnish, heated Drop-pool and a seating group from which you can enjoy the view to Lake Saimaa. The Scandinavian style interior design uses Finnish materials, such as local high-quality wool fabrics. The artisan tableware and the Terhen sauna products add a touch of luxury. Soft bathrobes and slippers are naturally included.

Private check in with villa host is available daily at 4-6pm. And you can check your holiday agenda with the host, who helps also with table reservations private activity reservations etc. during the stay.

PRIVATE SERVICES

Add private services to the holiday to make it even better and more deluxe.

Sahanlahti restaurants serve local hand made delicacies

Sahanlahti restaurants are close by. Enjoy breakfast at restaurant Koskivahvi (or order breakfast to the villa) with the most beautiful terrace view in Finland. In summer, restaurant Koskivahti serves brunch or lunch and, in the evening, dinner from the à la carte menu. In the summer restaurant Rantamakasiini, you can relax in the lovely atmosphere of the harbour while enjoying refreshing drinks, barbecue and delicious pizzas. The Gin bar is a perfect place to quench your thirst and watch the boats passing by. Ginibar lounge is also bookable for private use. Just for you and your chosen one.

Private activity guide at your service

How about taking a VIP cruise to explore a nearby island with a green lagoon. Private guide will come to villa pier and pick you up and navigate the motor boat safely to enjoy a half day on the water of Lake Saimaa! You may also spot the rare Lake Saimaa seal on the way. Also sunset cruises with ecofriendly electric boat is available. In winter time there is kick sled, snow shoe etc. activities and NEW! Guided electric snow scooter experience.

Get to know even more about Elsanranta Saimaavillas @ <https://elsanranta.fi/home>

We have opened an english site to introduce Elsanranta Saimaavillas. We will continue to update these pages on the way until "open in 15.6." and you can always get back to check out more details and news.

Next stage will be a healing sauna concept, that we will tell you about later.

Cecilia Mattila, Sahanlahti Resort Account manager and head of sales will be at Matka 2023 Workshop in Helsinki 17.-19.1. If you are interested in meeting Cecilia, please contact us.
